- 2) Control over concentrations, concerted actions of enterprises and price (tariff) regulation of natural monopolies;
- 3) Promotion of fair competition.

Competences of the Antimonopoly Committee of Ukraine

Economic competition in Ukraine has become a reality. Nowadays the main assignment of the Antimonopoly Committee is not a formal elimination of monopolism, but creation of an effective competitive environment. The environment able to ensure stable economic growth and improvement of quality of life of people.

In frameworks of its authorities the Committee controls activities of enterprises of all forms of property, public authorities and bodies of local self-governance, as well as operation of foreign enterprises in Ukraine.

The Antimonopoly Committee has powers to approve decisions on prevention and discontinuance of violations of competition legislation, obligatory for enterprises and public authorities, it is able to prohibit or authorize concerted actions in the markets, to apply sanctions and fines against violators of the rules of fair competition.

The Antimonopoly Committee is not only a body sanctioning violators of competition legislation. First of all it is a partner to entrepreneurs who stick to fair rules in their business, and an assistant to ordinary people facing despotism of monopolies.
